What is Ray 4?

Ray 4 is an AI image generator that creates high-quality images from text prompts or reference images. It runs entirely in the browser at <https://www.ray4ai.com/> with no installation required.

The platform supports two core workflows:

Text-to-Image

Describe a scene, style, and mood in text, and Ray 4 generates a high-quality image that matches your description.

Image-to-Image

Upload a reference image and Ray 4 transforms it into a new creation based on your chosen style and settings.

Key Capabilities

- **Multiple styles:** Realistic, artistic, and anime styles available
- **Quality options:** HD and 4K Ultra HD resolution
- **Adjustable settings:** Control style, quality, and aspect ratio before generating
- **Image-to-image editing:** Transform reference images with AI-powered style transfer
- **Browser-based:** No software download or installation needed

How Ray 4 Works

The generation process follows three simple steps from idea to image:

1. **Describe or upload** — Write a text prompt describing the image or upload a reference image as the starting point.
2. **Select settings** — Choose style, image quality, and aspect ratio. Preview settings apply in real time.
3. **Generate and refine** — Generate your image, preview it in the browser, create variations with different settings, and download the final result.
